I have conscripted Paul Devillers, a lawyer and cabinet minister in the Chretien government to come to Barbados and size up where Senator Lowe is at in his political initiative and help us create a brief of what he needs to do.

Paul is available to fly to Barbados on Thursday May 4th so we could have Mr. Lowe over for supper and spend the next day going out with him to whatever he wanted to show us.

If that works for him please let me know. If not that date then the next date is after the 22nd of May.

Thanks, Bill
