Subject: receivership-Denis

Joe was out of the country not due back till today so first chance to speak with him today although he already has the materials. I wonder whether a word from you will help motivate him.

Denis came through with an encrypted budget for July which means we are all communicating now. An improvement for sure. Paul (and his wife) are going to Seaview Jul 5 and I will arrive before he leaves (timed to the Splash meeting) so we can do a joint meeting with Denis and from there let's hope it is smooth sailing to get him elected and also make him stand up for our common principles i.e. the charter for change.

Bill
