Vincent Alleyne, BSc, Post Grad Dip (CERMES) UWI, Post Grad Dip (Business Administration) Heriot Watt University, Land Surveyor and Team Leader

Vincent Alleyne is a land surveyor with over thirty three years practical experience in the planning and execution of residential subdivisions. He has considerable management experience having spent over thirty six years in the Public Sector at the National Housing Corporation with twenty one of those years at senior management level. Four years as Deputy Chief Technical Officer, ten years as Chief Technical officer and seven years as General Manager of that organization. Mr. Alleyne holds a Bachelor's degree in Mathematics & Computer Science and a Post Graduate Advanced Diploma in Resource Management and Environmental Science from the University of the West Indies, a Post Graduate Diploma in Business Administration from Heriot-Watt University.

He has practical experience in conducting Air Quality tests in Libraries in Barbados and has conducted extensive research in Environmental Impact Assessments on Turner's Hall woods and the West Coast of Barbados (Brighten, Black Rock to Six Mens, St. Peter) in Barbados and Frigate Bay in St.Kitts.

Philip Alleyne BSc, Civil Engineer

Philip Alleyne holds a Bachelor's degree in Engineering from University Of Toronto in Canada and has over thirty five years practical experience in the design of major road net works in Las Vegas and other parts of North America. He has considerable experience in traffic management and is currently Director of Public Works and Engineering at the City of Lauderdale Lakes in Florida.

Michael Alleyne, LLB (Hons), LLM Attorney-at Law

Mr. Alleyne graduated from the University of the West Indies in 1990 and was admitted to practice law in Barbados in 1992 after completing his practical training at the Hugh Wooding Law School in 1992.

He completed his postgraduate studies in International Environmental Law at the University of Nottingham, UK in 1999.

Mr. Alleyne has had over twenty-seven (27) years experience in the Barbados public sector with the last eight (8) at senior management level at the Land Registry culminating in his appointment as Registrar of Titles

During his tenure as Registrar he served as a member of the Land Transfer Committee of the Barbados Bar Association. He was sponsored by the British Council to attend an interactive international seminar on "Global Environmental Law, interpretation, Integration and Implementation" in Scotland in 2000.

He is also an Affiliate Lecturer in the Centre for Resources Management and Environmental Studies at the Cave Hill Campus of the University of the West Indies on Environmental Law and its Administration.

He served as an executive member of the Barbados Police Co-operative Credit Union for over fifteen (15) years, three (3) of which were spent as President and Chairman of the Board of Directors from 1995-1997 and 2001-2002.

Mr. Alleyne is a partner of the firm George Walton Payne & Company

CONCENTRATION: Real Property, Town and Country Planning Law

YVETTE HUMPHREY Dip PPT (Hons) MSc UP (Environmental Design), Planner

Yvette Humphrey worked at the Town and Country Development Planning Office from 1972 until 2001. During this time, between 1986 and 1989, she completed a course in Physical Planning Technology at the College of Arts Science and Technology (now the University of Technology) in Kingston, Jamaica where she graduated with honours. In 1997 to 1999 she attended the Oxford Brookes University in Oxford, England and completed her Masters Degree in Urban Planning with Environmental Design as the specialization.

In 2001 she joined the management team at the National Housing Corporation whose mandate is to provide low cost housing for the Government. She managed a unit that prepared architectural plans, subdivision layouts and surveying plans for the organisation. Her main duties involve managing the unit, preparing subdivision designs, researching information for planning applications and advising on land use. Ms Humphrey now works in a private capacity offering planning advice and representing clients at Planning Hearings. This sound educational background, coupled with the wealth of experience gained in government planning over the years would make her an asset to any project dealing with any aspect of urban planning, especially in the area of environmental design.
