

Moreover I am informed that the Ministry of Education is of the view that STEM Guyana is playing a pivotal role in the development of Robotics in Guyana and consequently, the Ministry has been lending tremendous support to this justified initiative. However, in relation to the introduction of Robotics, Animation and use of Artificial Intelligence as part of the national core curriculum within the school system the Ministry plans to use its approved protocol which includes advertising of the tender in accordance with the Procurement Laws, rules and best practices to ensure transparency and maximum returns on investment.

It must be underlined, that with this process all Guyanese regardless of race, gender, religion, political affiliation, or geographical location will have the opportunity to engage the Ministry and everyone will be treated fairly and without prejudice. I would encourage, STEM Guyana to tender.

In the circumstances, it is reasonable to conclude that your statements were calculated to lower the Honourable Minister's reputation in the minds of right thinking members of society. In fact your statements are a direct attack on my client, and the diligent and hardworking staff of the Ministry of Education.

As a result, I am instructed by my client, as I hereby do, to demand that you retract your statements within 24 hours and give unequivocal apology. Failure to adhere will cause legal proceedings to be instituted against you without further notice.

Yours faithfully
